[Hassan El Ouazizi]

I'm currently building my career as an Assistant Developer, gaining hands-on experience in backend and frontend technologies. My primary focus is on mastering Golang for backend development, designing clean and efficient APIs, and strengthening my understanding of database management and application architecture.

WORK EXPERIENCE

01 TALENT

Assistant Developer │ Sep 2024 - Aug 2025

Assistant Developer training to become a full-stack developer at Zone01 Talent

`go` `javascript` `rust` `sqlite` `docker` `docker compose` `typescript` `ReactJS` `next.js` `graphql` `css` `html` `json` `nodeJS`

SOTIAL NETWORK APP

Full-Stack developper │ Jan 2025 - Apr 2025

drive.google.com/file/d/1L_vjewoTDi1LaHXpbyMo6-LB4QourvxO/view?usp=sharing │
github.com/helouazizi/sotial-network

 social-network – Facebook-like Social Network
social-network is a full-stack social networking platform inspired by Facebook. Users can create profiles, follow others, publish posts, join groups, receive notifications, and chat in real-time. It was developed as a collaborative learning project using modern web technologies.

`javascript` `go` `sql` `typescript` `websocket` `NestJS` `docker compose` `docker`

NETFIX

Full-Stack developper │ Mar 2025 - Aug 2025

github.com/helouazizi/netfix

Netfix is a Django-based web platform that allows users to request home services and companies to provide them. Services include carpentry, painting, home cleaning, plumbing, and more. The platform supports two types of users with distinct roles:

Company: Can create new services.
Customer: Can request existing services.
